September 28, 2023

(Nashville, TN) - Advanced Plastics, Inc. has purchased the assets of the former Marshall-Gruber Company, LLC, effective October 1, 2023.

This acquisition enables Advanced Plastics to expand both its geographical reach and product line depth. This opportunity enables our organization to introduce ourselves to an industry-wide range of customers on a national and global scale, expanding offerings in our current industry.

Family owned since 1959, Advanced Plastics has 8 warehouse locations throughout the Southeast with our corporate office located in Nashville, TN. In addition to composites, we supply industrial grade plastics, sign supplies and related products. We are a 20-plus year supplier member of ICPA and ACMA supporting the Cast Polymer industry.

An agreement has been reached to lease the existing facility in Mansfield, TX. As a part of this agreement we will retain production and distribution capabilities at that location. Advanced Plastics has also retained the senior staff in Mansfield to ensure a positive customer experience. Phone and fax numbers remain; email addresses will change.

We look forward to a seamless transition for existing Mansfield customers and vendors and look forward to meeting everyone!

For more information, please contact Craig Abner, President, (615) 350-6500 extension 10118.
